The only reason they are entered, is for the Record Center. They are NOT VALID CERCLIS sites. No data need to be entered.

John, Didn't you tell me that Oil sites need Site IDs for the record center? If so, does the record center need them to be in SEMS to scan the documents into SDMS?

Todd, do you know if oil sites need to go into SEMS for SDMS purposes?

Added some more. What is with all the Oil site, these site are not valid sites. They are entered oil so the POLREPs can be entered into SDMS? No CERCLIS dates are entered into the database.

Ok, but I need to know the actual names that are listed on the SIFs for the below sites. These sites are not listed in SEMS as they are shown on Carol's accomplishment reports.

Thanks,

LaVetta

All the SIF forms I have received have gone upstairs; however there are some the some that the lat/long have to be corrected.

Please provide me with the actual name of the following sites. If any of these sites have not been entered into SEMS please provide Darryl with the completed SIF for those sites:
